228 unique LST people
38 served at multiple camps

**Bands - included in diverse category if had at least 1 person of ethnic or gender diversity.*

EMPLOYMENT

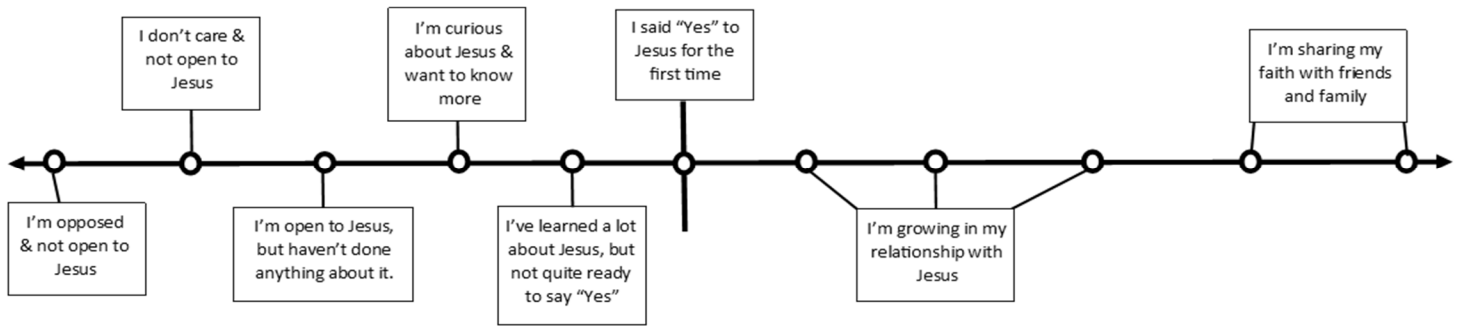

41% of all Program Teams were led by women

MOVEMENT SPECTRUM

PURPOSE: We have always collected the standard three responses of "Yes," "Yes again," and "Not Yet." However, our goal is not **just** to help move kids to a place of saying Yes to Christ for the first time in their lives. We also desire to see everyone experience Jesus and move closer to Him no matter where they are at on their faith journey. In an end-of-week survey, campers and Project Serve participants rated where they believed themselves to be on the spectrum before they arrived to camp and where they believed themselves to be after being at camp for the week. Each dot on the spectrum was assigned a numerical value for the purposes of data analysis.

OVERALL MOVEMENT - CAMPER

BEFORE CAMP AFTER CAMP

OVERALL MOVEMENT - PROJECT SERVE

BEFORE CAMP AFTER CAMP

AVERAGE SPECTRUM MOVEMENT ::

Middle School Campers - **1.83** spots up the spectrum

High School Campers - **1.55** spots up the spectrum

Project Serve Participants - **0.83** spots up the spectrum
